ABOUT ME

Computer Science and Design undergraduate with a foundation in frontend technologies including HTML, CSS, JavaScript, React, and Tailwind CSS. CodeSoft intern seeking a Frontend Developer internship.

EDUCATION

Bachelor of Computer Science and Design

2023-2027

Bannari Amman Institute of Technology

CGPA: 8.15

Higher Secondary Education

2023

Srinivasa vidhyalaya Hr Sec School Udumalpet

87.16%

TECHNICAL SKILLS

Programming Languages: Java, C, Python, JavaScript

Web Technologies: HTML, CSS, React.js

UI/UX Design: Figma, Wireframing, Prototyping, User Research

Database Technologies: MongoDB, MySQL

EXPERIENCE

Frontend Developer Intern

Mar 2025 – Jul 2025

Crayond Digital Pvt. Ltd.

- Built 15+ reusable, responsive UI components using React.js and Next.js, improving maintainability.
 - Optimized state management and component integration to enhance UI performance and scalability.
-

PROJECTS

- Education Platform for Rural Learning**

React.js, Tailwind CSS

Developed a frontend education platform designed for rural users with limited or unstable internet connectivity. Implemented features such as online/offline network status indicators, video-based learning, and interactive quizzes to enhance accessibility and engagement.

- **Fitness Application – Workflow & UI Design**

Figma

Designed an end-to-end user workflow and high-fidelity UI screens for a fitness application using Figma. Focused on intuitive navigation, user flow consistency, and responsive design concepts across devices.

- **Restaurant Website – Responsive Web Templates**

HTML, Tailwind CSS

Designed and developed reusable, responsive web templates for a restaurant-based website using HTML and Tailwind CSS.

- **Movie Management System (Console Application)**

Java, Arrays, Lists

Developed a Java-based CRUD console application to store and manage movie details such as actor, director, and ratings. Implemented structured data operations using arrays, lists, and custom methods.

- **Micro-Donation Platform for Disaster Relief (SIH Project)**

React.js, Tailwind CSS, TypeScript, express, supabase

Developed a responsive frontend platform to support micro-donations for disaster relief initiatives. Designed the system with AES-256 encryption architecture, offline-enabled access, and USSD-based support to ensure secure and inclusive usage during emergencies; currently working on backend integration.

CERTIFICATION & ACCOMPLISHMENTS

- JavaScript-Infosys Springboard
- HTML-Infosys Springboard
- React JS- Scaler
- solved 100+ problems in LeetCode
- Adobe Hackathon Round1(Problem Solving)
- SIH participant'25(Semi Finale)
- Codsoft Internship -codesoft
- Ideathon Competition -Bannari Amman college
- Snap Mini Hackathon & Workshop Snapchat
- Hackzilla national level hackathon-KPR
- Hands-on Generative AI Workshop Integra Connect
